

Pocket e-Library

Our Management Pocketbooks are now available as e-books, in PDF file format. The *Pocket e-Library* comprises some 90 e-books, representing thousands of pages of valuable learning resources.

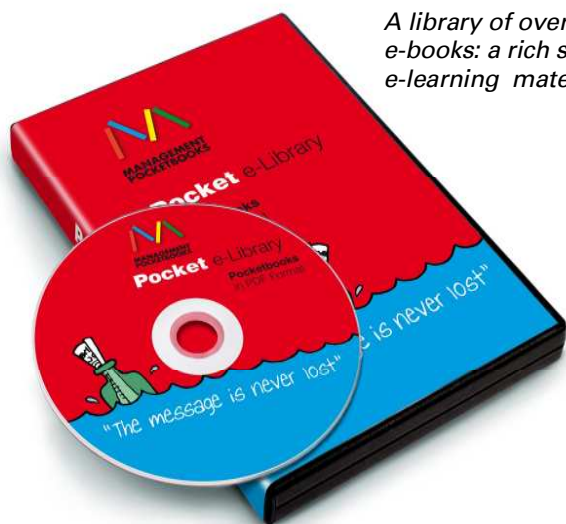

With their rich content of helpful diagrams and other distinctive visual aids, our pocketbooks really do 'come alive' when viewed on screen. See the impact for yourself on your PC or Apple Mac.

The e-books are versatile: you can enlarge pages, locate topics quickly using the search function and print out any pages you need to keep handy.

Corporate e-Learning Licences

Why not upload the *Pocket e-Library* to your company intranet or Learning Management System?

A library of over 90 e-books: a rich seam of e-learning material.

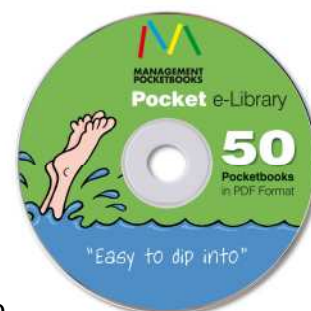

The price of an annual licence is banded according to the number of people you anticipate using the resources. During the licence period access to the learning content is unlimited and users can print pages any number of times for their own use.

One of Europe's leading business schools reports that the most popular module of their virtual learning resource centre is the *Pocket e-Library*! We're very proud of this ringing endorsement and feel sure that our e-content will give invaluable support to your learning delivery across the organisation.

And cost-effectively too! The annual licence fee per person often amounts to no more than the cost of a paperback!

Our 'Top 50' e-books on DVD

If an e-licence is not what you're looking for, then you can buy individual e-Pocketbooks at £6.08 each (£6.99 including VAT).

Alternatively, we're making available our 'Top 50' titles on DVD for £199.99 + VAT. That's just £4 per e-book excluding tax!

The self-loading DVD incorporates an index of titles, arranged by subject area, to help you quickly locate the e-book of your choice. To open the e-books you must have the DVD inserted in your disk drive.

For further information about e-licences and to order the DVD or individual e-books, please contact us at the address below.
